

I am highly motivated, confident and very creative and thoroughly enjoy getting involved with all types of projects. During my time at University I have managed to develop skills in areas of typography, print, web design, animation and photography and have also proved to play a vital role as part of a group as well as working individually.

Education

2004-2008
Interactive Design [BA Hons]
University of Lincoln
Higher second class award

2003-2004
Games Computing [BSc]
University of Lincoln
First year pass

2001-2003
AVCE ICT
Tendring Technology College

Experience

Albion, London
Upon graduating from University I was lucky enough to be invited to established London advertising agency Albion to work along side professionals from different creative backgrounds and departments. At Albion I assisted in the creation of three stop frame animations for Skype. Albion allowed me to get an insight into how a professional studio is run and how to work as part of an effective creative team.

Studio View, Lincoln
Whilst at University I worked for a period of time at local design agency Studio View. I worked on a number of digital projects from blue chip clients such as O2 and Connexions which were positively received. Studio view gave me experience working closely with clients to tight deadlines and as a successful team and effectively on my own.

Freelance
Since leaving University I have taken on a number of challenging projects from various clients that have enhanced my design and communication skills. Working freelance has given me great experience dealing with a variety of clients, working to tight deadlines and has offered me fantastic opportunities to work with agencies such as Bunch London and Ordinary Designs.

Skills

University provided me opportunities to work on individual and group projects in different environments where I have developed my communication and social skills with people of all ages and backgrounds. I was also able to build excellent relationships with clients, suppliers and team members, which helped with achieving successful deliveries, some to ambitious time frames. I am comfortable working under pressure and I am passionate to succeed. I am quick to learn new skills and eager to broaden my knowledge in all areas of design. I have a strong eye for detail, excellent organisational skills and enjoy delivering quality with out compromising time or cost. I have also demonstrated my ability to work within a group environment and been trusted to work on my own in personal surroundings.

I am a competent user of software packages including Photoshop, Illustrator, Flash, InDesign, Dreamweaver, Premier, Final Cut, Office software and am continuously expanding my knowledge of HTML, CSS, Action script, Javascript, XML and PHP. I am also an adept user of PC and Mac's.

Additional

As a passionate designer I am always keen to get involved with additional projects to learn new skills and tools. A selection of competition entries are listed below, further information can be viewed on my online portfolio.

Doritos

A stop frame photography animation advert that was short-listed from 900+ entries. This involved working overnight for a month whilst facilities were vacant and available.

The Wellcome Collection

An interactive piece of informative design to be used on their gallery web site. With entries from all around the globe I was short listed to the final 25.

Sparkhouse Studios

A business proposition to design and develop an interactive game that used motion tracking technology which was short listed to the final 20 submissions.

Personal Interests

Since leaving University I have continued my interests in design by working on projects set by myself and various clients, enhancing my skills and knowledge. I have been working on various web sites, animations and print work taking inspiration from design magazines, books and web sites as well as designers and artists whose work I admire. I am passionate about design, animation, gaming and music. I also enjoy listening to and seeing bands live whenever I can, play the drums and like to play football whenever possible.
